

GROUP PROFILE

2021

The Group

Air Change International Ltd is the holding company for the Air Change Group.

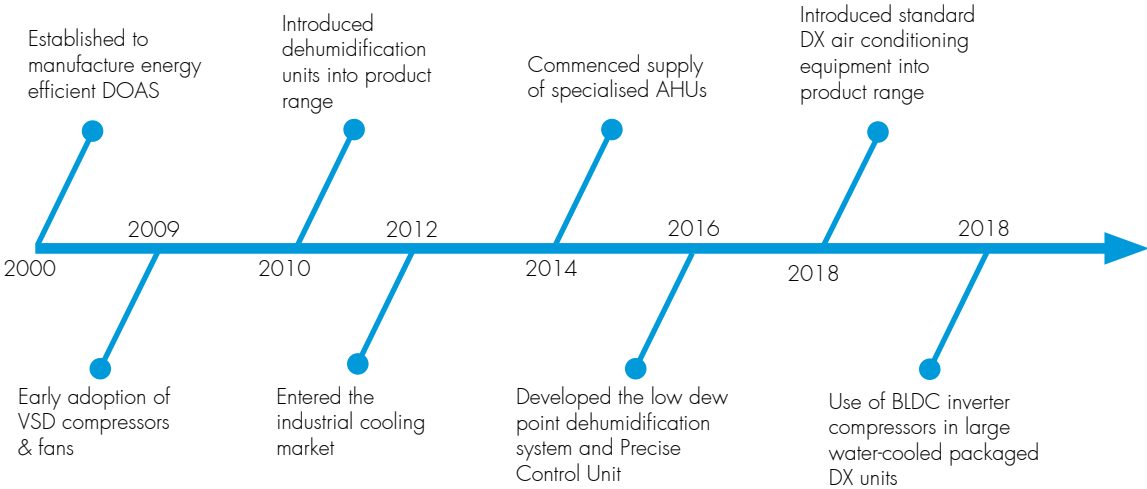

Air Change Pty Ltd was the founding company of the Group and was established to design and manufacture energy efficient Dedicated Outdoor Air Systems (DOAS) using its internationally patented heat exchange technology. Over the past 20 years, the Group has grown by increasing its product range and geographical footprint. Today, Air Change Group is a market leader in DOAS and dehumidification solutions, and can also provide general HVAC and industrial cooling equipment through its subsidiary businesses.

The Group now comprises the brands Air Change, Summit Industrial Chillers, Fan Coil Industries and Dunnair. Our products are exported throughout the Asia-Pacific region for a diverse range of commercial and industrial applications in varying climatic conditions.

In addition to our standard product range, our experienced engineering team can tailor a unique effective solution for any heating, cooling, or dehumidification need.

Milestones

Industry Awards

Our contribution to the development of energy efficient HVAC and dehumidification products has been acknowledged through multiple Australian industry awards.

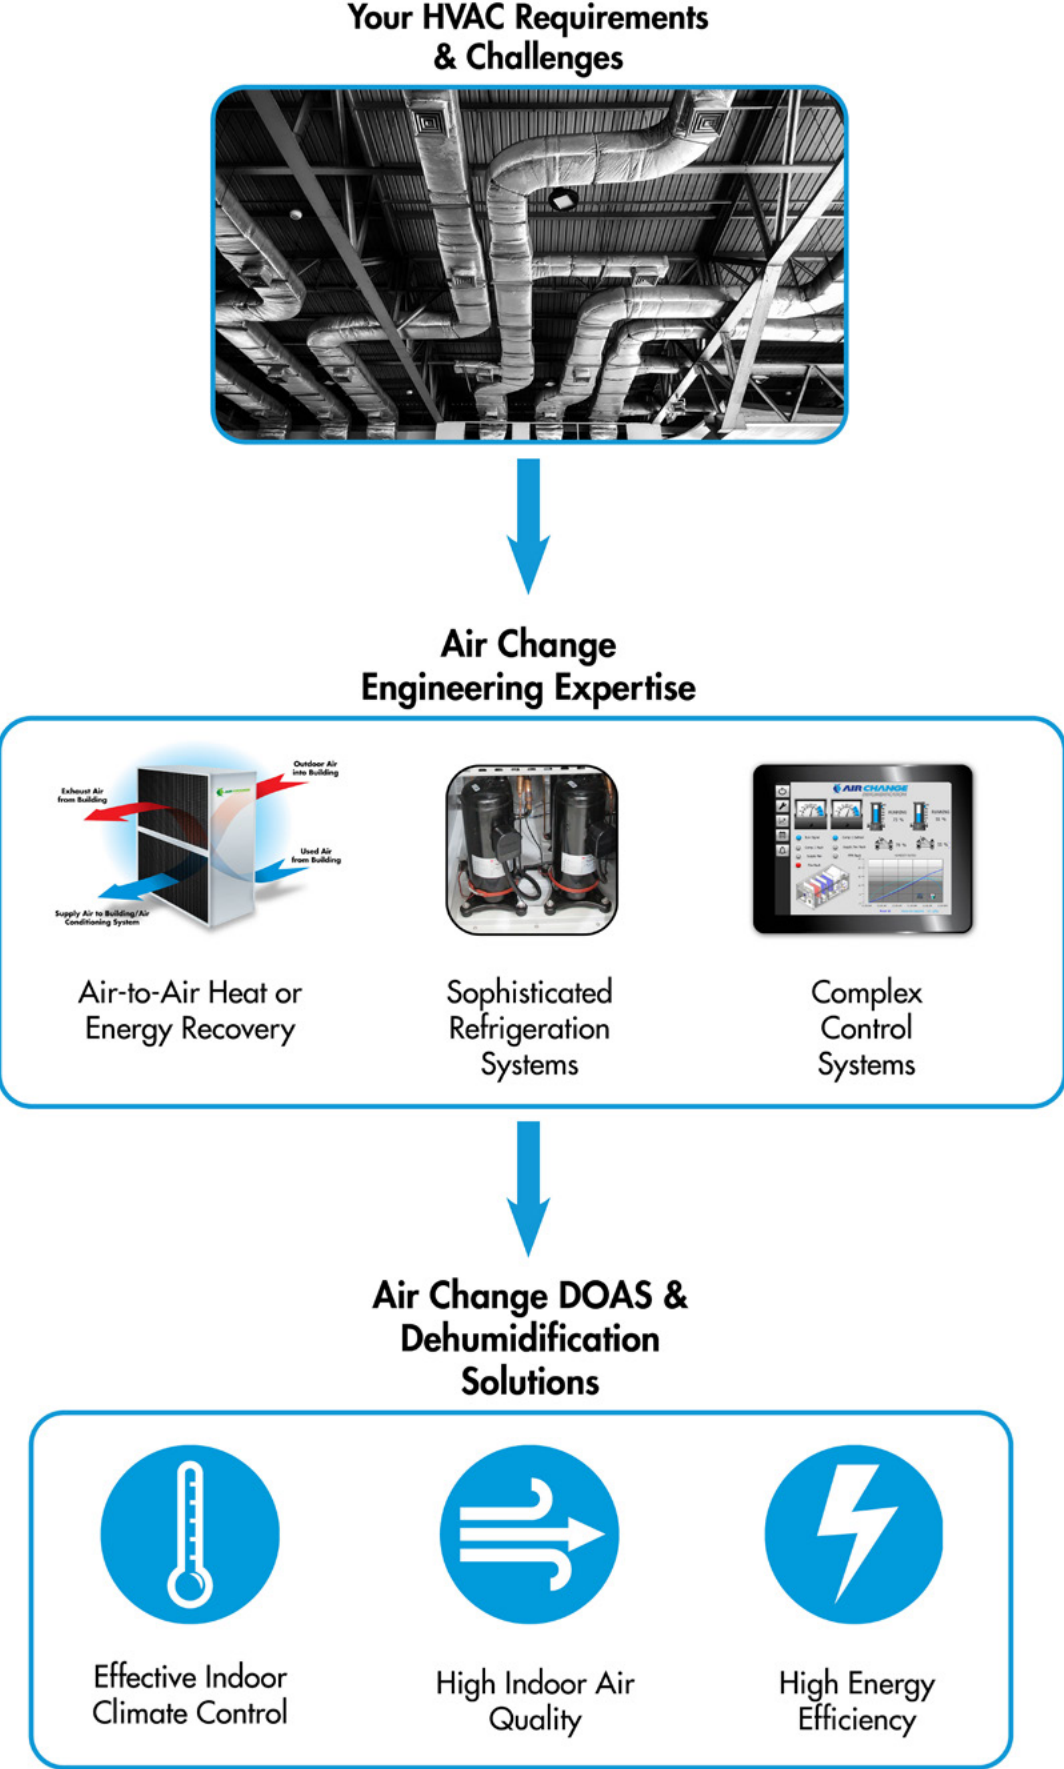

We combine the latest technologies and innovation to offer energy efficient customised HVAC and industrial cooling solutions.

Facilities

The Group’s research and engineering functions are undertaken in south-west Sydney, while manufacturing occurs at facilities located in Sydney, Malaysia and China.

Our dedication to innovation and engineering know-how has enabled us to be the trendsetter in the DOAS and dehumidification market spaces.

Air Change's Core Mission

Air Change Group Brands

Air Change provides unique DOAS and dehumidification solutions for local and international clients. We have developed a comprehensive range of energy efficient products to deliver controlled indoor climate conditions satisfying the requirements of the project stakeholders: the developer, the design engineer, and the owner and occupants of the building.

Fan Coil Industries is an Australian manufacturer that commenced operations in 1983 and aims to provide a specialised range of products to meet the demands and requirements of the Australian HVAC industry. Flexible, customised designs and superior customer service has seen Fan Coil Industries become a leading bespoke HVAC manufacturer.

Summit Industrial Chillers design and manufacture integrated industrial cooling systems for the mining and manufacturing process industries. We have the capability to design and manufacture cooling systems that can supply a wide range of fluid temperatures in diverse climatic operating conditions.

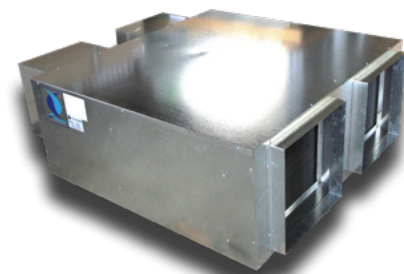

From its origin in 1961, Dunnair continues to be a leading supplier of quality and innovative commercial air-conditioning made specifically for the Australian HVAC market. Our wide range of standard and customisable products include air cooled rooftop packaged and split ducted units, as well as water sourced heat pumps.

Our Product Range

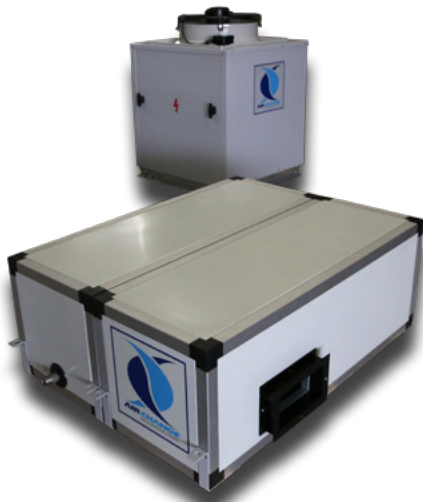

In-Ceiling Heat or Energy Recovery Ventilators (70 - 1200 l/s)

Rooftop/plantroom Heat or Energy Recovery Ventilators with optional integrated CHW & HHW coils

Precise Control Units (PCU) - precise temperature & humidity control for any application

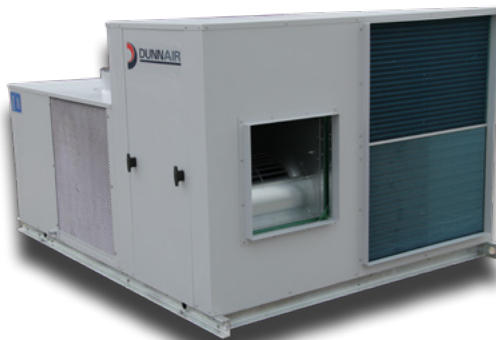

Split Make-Up Air (SMA) units - energy efficient make-up air dehumidifiers

PoolPac™ & PoolPac Plus - indoor pool climate control and pool water heating

Rooftop Packaged Units with integrated heat or energy recovery

Air & water cooled DX air conditioners with fixed speed or inverter compressors

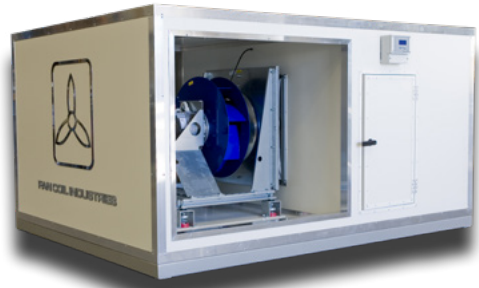

ACDHUM - outside air dehumidification with heat exchange precool and reheat to lower energy consumption. Available with DX or CHW cooling

RTU range of 'big box' air conditioners

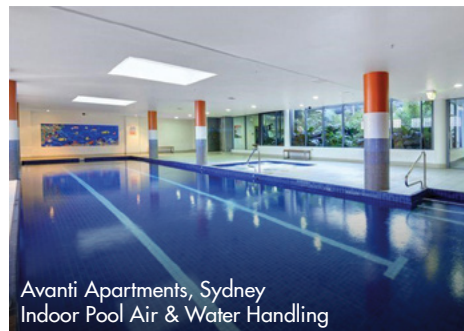

Integrated industrial cooling systems

Specialised Air Handling Units & Fan Coil Units

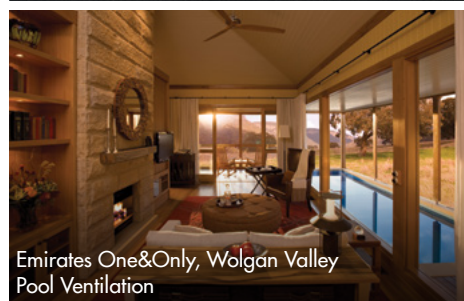

Projects

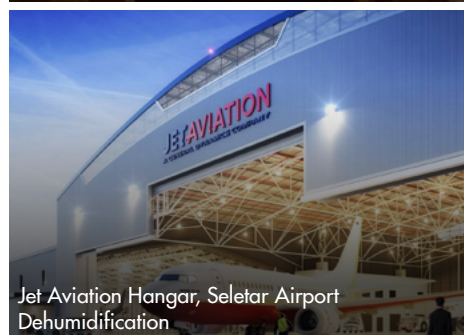

Avanti Apartments, Sydney
Indoor Pool Air & Water Handling

Pixel Building, Melbourne
Energy Recovery Ventilation

Emirates One&Only, Wolgan Valley
Pool Ventilation

Jet Aviation Hangar, Seletar Airport
Dehumidification

Dupont Danisco Production Facility, Sydney
Low Dew Point Dehumidification

Global Switch Woodlands Data Centre, Singapore
Precise Temperature & Humidity Control

Aldi Supermarkets, Queensland
Dehumidification

Wrigley's Production Facility, Sydney
Industrial Cooling

Westmead Institute for Medical Research, Sydney
Custom Air Handling

Equinix SY4 II Data Centre, Sydney
Dehumidification

Adina Hotel Surry Hills, Sydney
Water-cooled Air Conditioning

Hillcrest Private Hospital, Rockhampton
Precise Temperature & Humidity Control

Menara Astra, Jakarta
Energy Recovery Ventilation & Air Handling

Australian Museum Long Gallery, Sydney
Precise Temperature & Humidity Control

Aurora Residences, Canberra
In-Ceiling Energy Recovery Ventilation

Hotel Grand Chancellor, Hobart
Indoor Pool Air Handling

Fraser Coast Cultural Centre, Hervey Bay
Energy Recovery Ventilation

Slade Health, Brisbane
Precise Temperature & Humidity Control

Mining Projects, Australia
Industrial Cooling

Victoria One, Melbourne
In-Ceiling Energy Recovery Ventilation

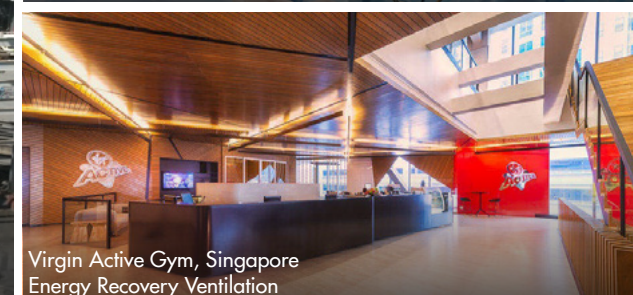

Dusit Thani Laguna, Singapore
Packaged Air Conditioning with Energy Recovery

Northern Beaches Hospital, Sydney
Custom Air Handling

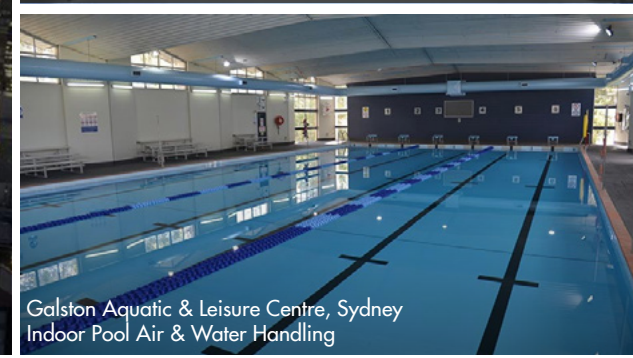

Ballina District Hospital, Ballina
Precise Temperature & Humidity Control

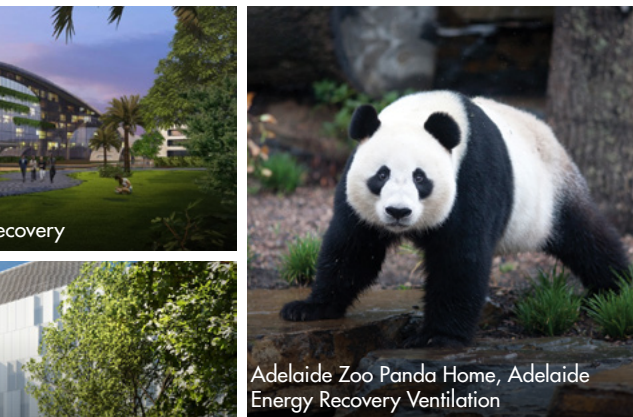

Virgin Active Gym, Singapore
Energy Recovery Ventilation

Ichor Systems, Singapore
Dehumidification & Air Handling

Galston Aquatic & Leisure Centre, Sydney
Indoor Pool Air & Water Handling

Adelaide Zoo Panda Home, Adelaide
Energy Recovery Ventilation

Nanyang Technological Uni, Singapore
Dehumidification

Australian Technology Park, Sydney
Water-cooled Air Conditioning
